

Suppose you had a clear view of the big picture

Call

Record

Play

Can't see the forest for the trees?

Now you can have a clear view of the telephone traffic to and from your company, Skype calls included.

The Call Recorder Pico automatically records all calls and stores them in a comprehensive database on your computer.

Surely you don't want to be on guard all the time. Let the Pico do it for you. The Pico is Vidicode's smallest call recorder, measured in body size, but linked to a computer it has an almost endless capacity for recording calls.

The software is user friendly and has extensive query options to retrieve a specific call in seconds. Recordings can be attached to e-mail, played back in a call or by any standard Windows audio player.

It is the perfect recording solution for private persons, small businesses, call centres and any other organisation. It's recording quality is **high**, it's price is **low**.

Onyx Line Call Recorder **Pico**
